(a) Every vehicle, other than a motorized bicycle, operated upon a street or highway shall display lighted lights and illuminating devices as required by this chapter during all of the following times:

(1) The time from sunset to sunrise;

(2) At any other time when, due to insufficient natural light or unfavorable atmospheric conditions, persons, vehicles, and substantial objects on the street or highway are not discernible at a distance of one thousand feet ahead;

(3) At any time when the windshield wipers of the vehicle are in use because of precipitation on the windshield.

Every motorized bicycle shall display at such times lighted lights meeting the rules adopted by the Ohio Director of Public Safety under Ohio R.C. 4511.521. No motor vehicle, during any time specified in this section, shall be operated upon a street or highway using only parking lights as illumination.

(b) Whenever in this chapter a requirement is declared as to the distance from which certain lights and devices shall render objects visible, or within which such lights or devices shall be visible, such distance shall be measured upon a straight level unlighted street under normal atmospheric conditions unless a different condition is expressly stated.

(c) Whenever in this chapter a requirement is declared as to the mounted height of lights or devices, it shall mean from the center of such light or device to the level ground upon which the vehicle stands.

(d) Notwithstanding any provision of law to the contrary, no law enforcement officer shall cause the operator of a vehicle being operated upon a street or highway to stop the vehicle solely because the officer observes that a violation of subsection (a)(3) of this section has been or is being committed or for the sole purpose of issuing a ticket, citation or summons for a violation of that subsection, or causing the arrest of or commencing a prosecution of a person for a violation of that subsection.

(e) Whoever violates this section is guilty of a minor misdemeanor.

(b) Either a tail light or a separate light shall be so constructed and placed as to illuminate with a white light the rear registration plate, when such registration plate is required, and render it legible from a distance of fifty feet to the rear. Any tail light, together with any separate light for illuminating the rear registration plate, shall be so wired as to be lighted whenever the headlights or auxiliary driving lights are lighted, except where separate lighting systems are provided for trailers for the purpose of illuminating such registration plate.
