CHAPTER 339 Commercial and Heavy Vehicles

339.07 TOWING REQUIREMENTS.

(a) When one vehicle is towing another vehicle, the drawbar or other connection shall be of sufficient strength to pull all weight towed thereby, and such drawbar or other connection shall not exceed fifteen feet from one vehicle to the other, except the connection between any two vehicles transporting poles, pipe, machinery or other objects of structural nature which cannot readily be dismembered.

(b) When one vehicle is towing another and the connection consists only of a chain, rope or cable, there shall be displayed upon such connection a white flag or cloth not less than twelve inches square.

(c) In addition to such drawbar or other connection, each trailer and each semitrailer which is not connected to a commercial tractor by means of a fifth wheel shall be coupled with stay chains or cables to the vehicle by which it is being drawn. The chains or cables shall be of sufficient size and strength to prevent the towed vehicle's parting from the drawing vehicle in case the drawbar or other connection should break or become disengaged. In case of a loaded pole trailer, the connecting pole to the drawing vehicle shall be coupled to the drawing vehicle with stay chains or cables of sufficient size and strength to prevent the towed vehicle's parting from the drawing vehicle.

(d) Every trailer or semitrailer, except pole and cable trailers and pole and cable dollies operated by a public utility, as defined in Ohio R.C. 5727.01, shall be equipped with a coupling device which shall be so designed and constructed that the trailer will follow substantially in the path of the vehicle drawing it, without whipping or swerving from side to side. Vehicles used to transport agricultural produce or agricultural production materials between a local place of storage and supply and the farm, when drawn or towed on a street or highway at a speed of twenty-five miles per hour or less, and vehicles designed and used exclusively to transport a boat between a place of storage and a marina, or in and around a marina, when drawn or towed on a street or highway for a distance of no more than ten miles and at a speed of twenty-five miles per hour or less shall have a drawbar or other connection, including the hitch mounted on the towing vehicle, which shall be of sufficient strength to pull all the weight towed thereby. Only one such vehicle used to transport agricultural produce or agricultural production materials as provided in this section may be towed or drawn at one time, except as follows:

(1) An agricultural tractor may tow or draw more than one such vehicle;

(2) A pickup truck or straight truck designed by the manufacturer to carry a load of not less than one-half ton and not more than two tons may tow or draw not more than two such vehicles that are being used to transport agricultural produce from the farm to a local place of storage. No vehicle being so towed by such a pickup truck or straight truck shall be considered to be a motor vehicle. (ORC 4513.32)

(e) Whoever violates this section is guilty of a minor misdemeanor.
(ORC 4513.99)

339.08 LOADS DROPPING OR LEAKING; REMOVAL REQUIRED; TRACKING MUD.

(a) No vehicle shall be driven or moved on any street, highway or other public place unless such vehicle is so constructed, loaded or covered as to prevent any of its load from dropping, sifting, leaking or otherwise escaping therefrom, except that sand or other substances may be dropped for the purpose of securing traction, or water or other substances may be sprinkled on a roadway in cleaning or maintaining such roadway.

(b) Except for a farm vehicle used to transport agricultural produce or agricultural production materials or a rubbish vehicle in the process of acquiring its load, no vehicle loaded with garbage, swill, cans, bottles, waste paper, ashes, refuse, trash, rubbish, waste, wire, paper, cartons, boxes, glass, solid waste or any other material of an unsanitary nature that is susceptible to blowing or bouncing from a moving vehicle shall be driven or moved on any street, highway or other public place unless the load is covered with a sufficient cover to prevent the load or any part of the load from spilling onto the street, highway or other public place.

(ORC 4513.31)

(c) No person shall operate any vehicle so as to track or drop mud, stones, gravel or other similar material on any street, highway or other public place.

(d) It shall be the duty of the driver of a vehicle who unlawfully drops or deposits mud, stones,

gravel or other similar material or permits the load or any portion thereof to be dropped or deposited upon any street, highway or other public place to immediately remove the same or cause it to be removed. (ORC 4513.31)

(e) Whoever violates this section is guilty of a minor misdemeanor.
(ORC 4513.99)

339.09 SHIFTING LOAD; LOOSE LOADS.

(a) In addition to any other lawful requirements of load distribution, no person shall operate any vehicle upon a street or highway unless such vehicle is so laden as to prevent its contents from shifting or otherwise unbalancing the vehicle to such an extent as to interfere with the safe operation of the same.

(b) No motor vehicle or trailer shall be driven unless the tailboard or tailgate, tarpaulins, chains (except ground or contact chains), ropes, stakes, poles, and the like, or any part of the load, are securely fastened to prevent dangling, flapping, swinging or falling from the side, end or top of the load or body. All projecting cargo shall be properly guarded by a red flag or cloth or a red light or lantern as required by Section 337.08.

(c) Whoever violates this section is guilty of a minor misdemeanor on a first offense; on a second offense within one year after the first offense, the person is guilty of a misdemeanor of the fourth degree; on each subsequent offense within one year after the first offense, the person is guilty of a misdemeanor of the third degree.
